# Contents of Volume 309

**Vol. 309, Nos. 1–4** **July 19, 2005**

Automated water content reconstruction of zero-offset borehole ground penetrating radar data using simulated annealing
D. F. Rucker and T. P. A. Ferré ..... 1
Applicability of neuro-fuzzy techniques in predicting ground-water vulnerability: a GIS-based sensitivity analysis
B. Dixon ..... 17
Daily potential evapotranspiration and diurnal climate forcings: influence on the numerical modelling of soil water dynamics and evapotranspiration
S. Liu, W. D. Graham and J. M. Jacobs ..... 39
Filtering the signature of submerged large woody debris from bathymetry data
L. White and B. R. Hodges ..... 53
The influence of seasonally frozen soil on the snowmelt runoff at two Alpine sites in southern Switzerland
D. Bayard, M. Stähli, A. Parriaux and H. Flühler ..... 66
Steepness expansion for free surface flows in coastal aquifers
D.-S. Jeng, B. R. Seymour, D. A. Barry, J.-Y. Parlange, D. A. Lockington and L. Li ..... 85
Approximate analytical solutions of the Forchheimer equation
K. N. Moutsopoulos and V. A. Tsihrintzis ..... 93
Entropy-based assessment and clustering of potential water resources availability
T. Maruyama, T. Kawachi and V. P. Singh ..... 104
Separating natural and epistemic uncertainty in flood frequency analysis
B. Merz and A. H. Thieken ..... 114
Seasonal evolution of runoff from Haut Glacier d'Arolla, Switzerland and implications for glacial geomorphic processes
D. A. Swift, P. W. Nienow, T. B. Hoey and D. W. F. Mair ..... 133
Hydrology of a first-order riparian zone and stream, mid-Atlantic coastal plain, Maryland
J. T. Angier, G. W. McCarty and K. L. Prestegaard ..... 149
Parameter identification for axi-symmetric density-dependent groundwater flow based on drawdown and concentration data
N. Van Meir and L. Lebbe ..... 167
Stochastic disaggregation of daily rainfall into one-hour time scale
Y. Gyasi-Agyei ..... 178
Estimating discharge in rivers using remotely sensed hydraulic information
D. M. Bjerklie, D. Moller, L. C. Smith and S. L. Dingman ..... 191
Pumping-well data for conditioning the realization of the fracture aperture field in groundwater flow models
C. Masciopinto ..... 210
Groundwater level forecasting using artificial neural networks
I. N. Daliakopoulos, P. Coulibaly and I. K. Tsanis ..... 229
The conceptualization of a channel network through macroscopic analysis of pumping and tracer tests in fractured chalk
D. Kurtzman, R. Nativ and E. M. Adar ..... 241
Relationship of stream flow regime in the western Lake Superior basin to watershed type characteristics
N. E. Detenbeck, V. J. Brady, D. L. Taylor, V. M. Snarski and S. L. Batterman ..... 258
SiSPAT-Isotope, a coupled heat, water and stable isotope (HDO and $H_2^{18}O$) transport model for bare soil. Part I. Model description and first verifications
I. Braud, T. Bariac, J. P. Gaudet and M. Vauclin ..... 277
SiSPAT-Isotope, a coupled heat, water and stable isotope (HDO and $H_2^{18}O$) transport model for bare soil. Part II: Evaluation and sensitivity tests using two laboratory data sets
I. Braud, T. Bariac, M. Vauclin, Z. Boujamlaoui, J. P. Gaudet, Ph. Biron and P. Richard ..... 301
